4:30pm

### **Connectivity Workshop**

In this workshop we will answer questions about connectivity and school server: How many servers will we need per school? How many access points will we need per school? What kind of network infrastructure do we need in the country? Will the children be able to connect from home? What additional infrastructure do we need in the country, e.g., backups, content, and update servers?

*Michail Bletsas, Chief Connectivity Officer*

*John Watlington, Senior Engineer*

6:30pm

Adjourn (free night)
